PRELIMINARY LIST

OF PLACES, RIVERS, ETC., ALPHABETICALLY ARRANGED FOR

THE IMPERIAL GAZETTEER OF INDIA.

BY W. W. HUNTER, B.A. LL.D.,

DIRECTOR-GENERAL OF STATISTICS TO THE GOVERNMENT OF INDIA; ONE OF THE COUNCIL OF THE ROYAL ASIATIC SOCIETY, ETC.

1877

NOTE.

THIS List is a preliminary one for my own guidance. The orthography of many of the names is still under inquiry. This remark particularly applies to the accents over the vowels, the whole revision of which has yet to be done in communication with my Pandit in India. Additional names will, in all probability, be inserted during the progress of the work; while, on the other hand, it is possible that I may be able to dispense with some of those which now appear in the List. But these corrections can only be done by slow degrees. Meanwhile, I have put the List in type to prevent any accident happening to it, and with a view to obtaining the criticism of the Surveyor-General of India, the Compilers of the Provincial Gazetteers, and the Local Governments.

The List has been drawn up from two sources. First, I compiled from the works in my Library the names of all places which have obtained prominence in the modern history or literature of India. Second, by means of circulars to the Provincial Compilers and District Officers, and by personal visits, I collected, on a uniform system, the names of all places of importance in every District throughout India. I have thus endeavoured to render the List complete, both from an administrative point of view, and for the purposes of the general public.
